

# Lodge Donation

The Vermilion Credit Union is humbled to be a small part of a wonderful community project that will provide a lasting legacy and enhanced quality of life for the citizens of Vermilion and surrounding area. The Living Well Capital Campaign will cap off the funding needs for an extensive and necessary modernization of the Vermilion Valley Lodge. Originally constructed in 1960, the lodge has now aged and no longer meets current government standards and resident's needs. With construction started, the Vermilion and District Housing Foundation is soliciting support from local businesses and residents. Vermilion Credit Union has always believed in the value of community and its citizens, and has consistently without hesitation supported its members financially through their numerous requests and needs. In recognition of our founding, current, and future members, Vermilion Credit Union has provided a gift to the Vermilion and District Housing Foundation, in the amount of, \$75,000. On behalf of our board, staff, and membership we look forward to the successful completion of this worthy community project that will benefit so many. For more information on the project, please visit [www.vdhf.ca](http://www.vdhf.ca)
