

To Our Valued Members:

We have made the difficult decision to close our doors to branch traffic in the best interest of community safety. We value our members and staff and want to provide the safest environment for all.

Effective Monday, March 23rd, we will be utilizing our drive-thru teller at our Vermilion branch to assist you in your daily transactions. Our staff will be available by phone to help you with your banking needs and questions. We can meet your needs through electronic signatures as well as our numerous online option: remote deposit capture, online banking, mobile app, and the ATM network. We will also be available by appointment if necessary.

During these challenging times, we are committed to maintaining a high level of banking access and support, providing expert advice and protecting our staff and members. We recognize the inconvenience and look for your understanding as we work to reduce the spread and minimize the difficulties associated with the COVID-19 virus.

Please reach us by phone:
