

- Install Google Wallet on your mobile device.
- Open the Google Wallet application, and tap “Add to wallet”.
- Tap “Payment card” then press “Add a payment card”.
- You can use your camera to scan your MemberCard or you can manually input your details.
- Once you’ve added your MemberCard, you’ll be prompted to accept the terms to continue.
- After accepting the terms, verify your card with a code sent via text, email, or by calling Vermilion Credit Union.
- After you verify your card, you might need to turn on contactless payments. You can do this by going into your phone’s settings.
- Once contactless payments are turned on, Google Pay will be ready to use. You’ll be asked if you want to make this your default card.
- To use Google Wallet, just unlock your phone, open the app, and hold it near the payment terminal.

Google Pay and Google Wallet are trademarks of Google LLC.
