Quick Reference Guide For Members

Small Business Profile Consolidation

- Log into your small business digital banking
- Click [Business Services](#) > [Profile Consolidation](#)
- Click [Add Profile](#)
- Enter your personal or other small business [username](#) and [password](#)
- Review and confirm the profile details > click [Continue](#)
- To view the consolidated profile, log out and then log back in

TIP: To switch profiles once you are logged in, use the dropdown located at the top of the page under your displayed profile name, select the profile you would like to switch to.

Small Business – Adding a Delegate

A delegate is someone other than a signer that you grant access to. You can choose if you want the delegate to have Read-Only access to simply view your accounts or Initiator access if they have permission to initiate a transaction – this will require a Signer to approve the transaction before it is completed.

- Log into your small business digital banking
- Click [Business Services](#) > [Delegate Management](#)
- Click [Add Delegate](#)
- Create and enter a [Delegate Username](#)
- Enter the name of the delegate being added
- [Check](#) either [Read-Only](#) or [Initiator](#) to set the access level
- [Check](#) either e-mail or mobile number to send password
- Enter the delegate's email address or phone number as per your previous selection
- Re-enter the delegate's email address or phone number to confirm
- Add delegate notes (if desired)
- [Check](#) the disclaimer confirming you have received consent from the delegate
- Click [Continue](#)
- Review and confirm the delegate details > click [continue](#)
- Enter the authentication code you received
- Click [Continue](#)

TIP: The signer will need to let the Delegate know the username you assigned them. The delegate will receive a temporary password via email or text (as you selected).
