

- Open the Samsung Wallet app on your Samsung Galaxy device.
- Follow the set up steps until you reach “Add to Quick Access”. Tap on the “+” button on the top right corner.
- Next, tap “Add payment card” to begin adding your MemberCard to your mobile wallet.
- You can use your camera to scan your MemberCard or you can manually input your details using “Add card manually”.
- Once you have added your MemberCard details, you will be prompted to accept the terms and conditions.
- After accepting the terms, verify your card with code sent via text, email, or by calling Vermilion Credit Union.
- Once your MemberCard is verified, it will appear in your mobile wallet. You can set it as your default card.
- You are now finished the process of setting up your payment card in Samsung Wallet. You can now pay anywhere tap is accepted.
- To pay, swipe up from the bottom of your phone’s home screen to open Samsung Wallet or tap on the Samsung Wallet app icon. Verify your card using your PIN or fingerprint and hold the phone near the terminal.

Need help? Our team would be happy to help set it up.
